

Logo Edge N-Series Basic suggested price list

Valid from September 3, 2026.

General explanations

1. All prices and price-related terms specified in this price list—including, but not limited to, license prices, training prices, and training durations—are for guidance purposes only and are non-binding.
2. All prices are stated in Turkish lira (TL) and exclude VAT.
3. Renewal fees will be calculated based on the current list prices applicable at the time of renewal. Logo reserves the right to revise its prices.

– Flexible Payment Plan

4. The flexible payment plan is a subscription model that offers customers various payment options.
5. Customers may continue using the product by paying the initial subscription fee in the first year and the applicable renewal fees in subsequent years based on their selected plan. Additional users, modules, e-solutions, and associated functional solutions purchased at a later date are also subject to the initial subscription fee in the first year and renewal fees in subsequent years.
6. The subscription is valid for one year. The renewed subscription period begins on the date the previous license term expires. Renewals will be processed based on the current commercial terms and prices.
7. If the subscription is not renewed by the renewal date, access to the product will be suspended, and the product will remain unavailable until the subscription is renewed. A 30-day period during which loyalty discounts are retained begins on this date. If the subscription is renewed within this period, a 10% late renewal fee will be added to the renewal fee, and the product will be reactivated once the renewal process is completed. If the 30-day period expires, the right to loyalty discounts will be reset, and a final 60-day period will be granted for renewal. A 10% late renewal fee will also be added to renewals completed within this 60-day period; however, loyalty discounts will no longer apply at this stage.
8. If the subscription is not renewed within the total 90-day period following the renewal date, the customer's license will be permanently terminated, and the right to renew the license will be revoked. To use the product again, the customer must purchase a new subscription at the applicable first-year subscription prices.

– Training

8. Training services cover product usage and are provided by certified business partners. Requests involving configuration, reporting, and customization are evaluated separately.
9. It is strongly recommended that training services be obtained exclusively from authorized Logo business partners and certified training specialists listed on Logo's corporate website (www.logo.com.tr).

– Descriptions

- Logo Edge N-Series Basic product and all its options can be used by up to 16 users.
- Logo Edge N-Series Basic can be used as a hybrid solution via desktop/web/mobile application.
 - License usage is based on the "Named User (Logo ID)" user licensing model. A user may log in through only one environment (desktop/web/mobile) at a time and may open a maximum of three (3) concurrent sessions within the same environment.
 - The Fixed Asset Management application uses the same maximum three-session pool as the ERP solution. For example, if a user opens two (2) ERP sessions on the desktop, the user may open one (1) additional Fixed Asset Management session.
- User increases added to the main packages are packages for increasing the number of users when added separately or successively.
Example: When "user increase +2" is added to the main package of Logo Edge N-Series Basic, a total of three (3) users are obtained. For the options used with the main packages, an additional user increase set is not necessary, if not listed.
- Turkish and English are provided as standard languages with Logo Edge N-Series Basic. German, Arabic, Persian, Russian and Azerbaijani are supported through additional language packages.
- Logo Edge N-Series Basic software and hardware requirements are specified in detail in the "System Requirements" document. This document can be obtained from authorized Business Partners.

– Options

- Logo Edge N-Series Basic works integrated with payroll and human resources management, workflow management, customer relationship management, warehouse management systems, retail, field sales management, business analytics and e-Solutions. You can contact our business partners for detailed information about solutions integrated with Logo Edge N-Series Basic in related categories.
- Logo Edge N-Series Basic POS cash register transfer (Windows) module supports these devices: IBM Genius, IBM Sps, Interpos, IBM POS, NCR 7400 (Tera), SIEMENS(Market+), SIEMENS(Tera), Escort POS, BBS POS, Olivetti (OL6000-OL6010-OL7000), Sharp ER-A495T, Entry, Micros (3500-8700/9700). Possible. This module neither supports nor designed for mobile POS devices and new generation cash register.
- For detailed information about domestic language support; **2026_Supported Language_Packs.pdf**

– e-Solutions

- Logo e-Invoice
 - While providing general use of the basic functions of the Logo e-Invoice application, e-Invoices can be manually received and sent through the e-Invoice portal provided by the Revenue Administration (GİB).
 - Thanks to the Private Integrator Integration, businesses can use the e-Invoice application by being integrated into the GİB's system through a private integrator.
- Logo e-Ledger
 - The e-Ledger application enables the General Journal and General Ledger documents to be prepared in the digital environment, in accordance with set standards, and sent to the Revenue Administration quickly and easily.
- Logo e-Archive Invoice
 - The e-Archive Invoice application enables e-invoices to be issued for businesses that use or don't use e-Invoices and for final customers, and provides copies of these invoices to be electronically stored and submitted.
- Logo e-Dispatch
 - The e-Dispatch application accelerates shipment processes and trade by creating delivery notes in the digital environment.
 - The e-Dispatch module is free of charge for the first subscription year for customers who have an active subscription, subscribe to the Logo e-Invoice module and use Logo Private Integrator. In the following year, the e-Dispatch module subscribed to free of charge will be included in the renewal calculation at the prices applicable at that time. If prices have not been updated as of the customer's renewal period, the renewal will be calculated using the amounts in the price list effective from September 3, 2026.
- Logo e-Producer's Receipt
 - e-Producer's Receipt enables Producer's Receipts issued by farmers and/or wholesalers who keep books for products purchased from farmers who do not keep books to be issued electronically and reported electronically to the Revenue Administration.
 - Logo e-Producer's Receipt is available only with Logo Private Integrator. This module is free of charge for the first subscription year for customers who have an active subscription and use Logo Private Integrator. In the following year, the module subscribed to free of charge will be included in the renewal calculation at the prices applicable at that time. If prices have not been updated as of the customer's renewal calculation period, the renewal will be calculated using the amounts in the price list effective from September 3, 2026.
- e-Solutions
 - Number of firms- represents the number of legal entities customer has approved by Revenue Administration and have a tax number. Firm increase feature should be purchased for additional firm needs. The number of firms can be increased at any time.
 - To use Logo e-Government solution applications in compliance with the applicable legislation, the user must subscribe to the relevant solution/module and hold a valid and active Main Package license. If the Main Package and module licenses are not renewed in accordance with the renewal terms, the license entitlement will expire. Consequently, the product cannot be used and the relevant e-Document or e-Ledger cannot be submitted. The user is responsible for all consequences arising from failure to meet the applicable prerequisites and technical requirements.

– Logo Financial Technologies

- Online Account Statement Application
Thanks to the Online Account Statement Application developed by eLogo, businesses using the compatible Logo ERP solutions can instantly monitor their bank, branch and account-based balance information in any currency from a single platform, and they can easily transfer their account activities in the banks integrated into the ERP application and create accounting records automatically. Click here to view the banks integrated with the application.
 - Package purchases are made through the order portal. The POS Transfer module is priced based on annual packages and credits.
 - Under the annual package, 30 credits are deducted monthly for each integrated POS terminal. The first 5 POS terminal integrations are free of charge, and credit deductions begin with the 6th POS terminal.
 - In the EHO transfer module, 1 credit is deducted for every 10 transactions. The first 2500 transactions are free of charge.
 - In the Money Transfer module, one credit is deducted for every four transactions.
 - There is no limit on the number of banks, branches, accounts or IBANs that can be defined in annual and monthly packages.
 - The application runs with compatible versions of Logo Edge N-Series Basic, Logo Edge N-Series Standard and Logo Edge N-Series Enterprise.

18. -Logo e-Collection

Developed by Logo, Logo e-Collection enables firms to securely collect payments by credit or debit card in a digital environment. Thanks to its integration with Logo Edge ERP, customers' current account balances can be easily tracked and received payments can be recorded in the accounts with a single click. Payments can be collected online through secure payment links sent to customers via email, SMS and WhatsApp. Firms can also manage collection processes through payment pages integrated into their websites and easily record received payments in their Logo Edge ERP systems. The B2B Portal feature enables firms to allow their dealers to collect payments through the Logo e-Collection application. In addition, the "Pay Now" link added to e-Invoices through the integration developed by Logo enables customers to complete their online payments easily. All collections made through these processes are carried out through the firm's own virtual POS agreements with banks, under its existing commission rates and payment terms.

- The system operates on annual package fees. There is no additional charge based on credits. Package purchases are made through the order portal.
- All packages include all 5000 e-mail, 1000 SMS and 1000 Whatsapp links delivery options. Each package is valid only for one firm, firm increase package should be purchased for other/sub firms.
- There is the right to define 1000 dealers in B2B portal package. After the first 1,000 dealers are defined, a dealer increase package must be purchased for each 1,000 dealers.
- The firm must obtain a virtual POS terminal to use the Logo e-Collection solution. The virtual POS commission rates are determined under the agreement between the bank or payment service provider and the firm using Logo e-Collection.
- Application works with compatible versions of following ERP products; Logo Edge N-Series Basic, Logo Edge N-Series Standard and Logo Edge N-Series Enterprise.
