

Logo Edge T-Series Basic suggested price list
Valid from September 3, 2026.

General explanations

1. All prices and price-related terms specified in this price list—including, but not limited to, license prices, training prices, and training durations—are for guidance purposes only and are non-binding.
2. All prices are stated in Turkish lira (TL) and exclude VAT.
3. Renewal fees will be calculated based on the current list prices applicable at the time of renewal. Logo reserves the right to revise its prices.

– Flexible Payment Plan

4. The flexible payment plan is a subscription model that offers customers various payment options.
5. Customers may continue using the product by paying the initial subscription fee in the first year and the applicable renewal fees in subsequent years based on their selected plan. Additional users, modules, e-solutions, and associated functional solutions purchased at a later date are also subject to the initial subscription fee in the first year and renewal fees in subsequent years.
6. The subscription is valid for one year. The renewed subscription period begins on the date the previous license term expires. Renewals will be processed based on the current commercial terms and prices.
7. If the subscription is not renewed by the renewal date, access to the product will be suspended, and the product will remain unavailable until the subscription is renewed. A 30-day period during which loyalty discounts are retained begins on this date. If the subscription is renewed within this period, a 10% late renewal fee will be added to the renewal fee, and the product will be reactivated once the renewal process is completed. If the 30-day period expires, the right to loyalty discounts will be reset, and a final 60-day period will be granted for renewal. A 10% late renewal fee will also be added to renewals completed within this 60-day period; however, loyalty discounts will no longer apply at this stage.
8. If the subscription is not renewed within the total 90-day period following the renewal date, the customer’s license will be permanently terminated, and the right to renew the license will be revoked. To use the product again, the customer must purchase a new subscription at the applicable first-year subscription prices.

– Training

8. Training services cover product usage and are provided by certified business partners. Requests involving configuration, reporting, and customization are evaluated separately.
9. It is strongly recommended that training services be obtained exclusively from authorized Logo business partners and certified training specialists listed on Logo’s corporate website (www.logo.com.tr).

– Descriptions

1. Logo Edge T-Series Basic and all its options can be used by up to 16 users. Logo Edge T-Series Basic solutions can be used as a hybrid solution via desktop, mobile and/or web browser.
2. Logo Edge T-Series Basic Main Package includes Inventory (Dispatch, Order, Costing, Dynamic Unitization, Equivalent Goods Tracking), Accounting, Fixed Assets, Invoice, Current Account (Payment/Collection, Payment Plan), Demand Management, Check/Promissory Note, Installment Transactions (Partial Collection), Credit Card, Bank, Cash, Exchange Rate Tracking, Inflation Accounting, Additional Tax (Special Consumption Tax, Special Communication Tax), Foreign Currency Calculator, Transaction Currency, Table and Pivot Reports, Task Scheduler, Manager Console, Exceltrans and Barcode Label Design modules.
3. Turkish and English are provided as standard languages with Logo Edge T-Series Basic. German, Arabic, Persian, Russian and Azerbaijani are supported through additional language packages. The language package price applies to one of the following languages: German, Arabic, Persian, Russian or Azerbaijani. When using the language package, the database language settings must be configured in accordance with the relevant language and the firm database language must be selected according to the appropriate language.
4. Logo Edge T-Series Basic software and hardware requirements are specified in detail in the “System Requirements” document. This document can be obtained from authorized Business Partners.
5. User increases added to the main package of Logo Edge T-Series Basic are packages for increasing the number of users when added separately or successively. Example: When “user increase +5” is added to the main package of Logo Edge T-Series Basic, a total of 6 users are obtained. For the options used with the main packages, an additional user increase set is not necessary, if not listed. (The term “User” means “Named User (Logo ID).”) Users registered with Logo ID can be added to the product up to the number of product users. Users without a Logo ID and product registration cannot log in to the product. · User count control is performed through Logo ID based on the named user model, and the product can be opened from a single environment with a Logo ID. When an attempt is made to log in from different machines with the same user, the session is terminated. The product can be opened 3 times on the same machine with the same Logo ID. · User count control is performed through Logo ID based on the named user model, and the product can be opened from a single environment with a Logo ID. – e-Solutions

11. Logo e-Invoice
 - While Connect Invoice provides general use of the basic functions of the e-Invoice application, e-Invoices can be received and sent manually via the e-Invoice portal offered by the Revenue Administration (RA).

Logo e-Ledger
 - The e-Ledger application enables the General Journal and General Ledger documents to be prepared in the digital environment in accordance with set standards and sent to the Revenue Administration easily and quickly.
12. Logo e-Archive Invoice
 - The e-Archive Invoice application enables e-invoices to be issued for businesses that use or don’t use e-Invoices and for final customers, and provides copies of these invoices to be electronically stored and submitted.
13. Logo e-Dispatch
 - The e-Dispatch application accelerates shipment processes and trade by creating delivery notes in the digital environment.
 - The e-Dispatch module is free of charge for the first subscription year for customers who have an active subscription, subscribe to the Logo e-Invoice module and use Logo Private Integrator. In the following year, the e-Dispatch module subscribed to free of charge will be included in the renewal calculation at the prices applicable at that time. If prices have not been updated as of the customer’s renewal period, the renewal will be calculated using the amounts in the price list effective from September 3, 2026.
14. Logo e-Producer's Receipt & Logo e-Self-Employment Receipt
 - * e-Producer's Receipt enables Producer's Receipts issued by farmers and/or wholesalers who keep books for products purchased from farmers who do not keep books to be issued electronically and reported electronically to the Revenue Administration.
 - * Logo e-Self-Employment Receipt enables self-employed professionals to issue Self-Employment Receipts electronically to individuals or organizations for collections relating to their professional activities and report them electronically to the Revenue Administration through Logo Private Integrator.
 - Logo e-Producer’s Receipt is available only with Logo Private Integrator. This module is free of charge for the first subscription year for customers who have an active subscription and use Logo Private Integrator. In the following year, the module subscribed to free of charge will be included in the renewal calculation at the prices applicable at that time. If prices have not been updated as of the customer’s renewal calculation period, the renewal will be calculated using the amounts in the price list effective from September 3, 2026.
15. e-Solutions
 - Number of firms- represents the number of legal entities customer has approved by Revenue Administration and have a tax number. Firm increase feature should be purchased for additional firm needs. The number of firms can be increased at any time.
 - * To use Logo e-Government solution applications in compliance with the applicable legislation, the user must subscribe to the relevant solution/module and hold a valid and active Main Package license. If the Main Package and module licenses are not renewed in accordance with the renewal terms, the license entitlement will expire. Consequently, the product cannot be used and the relevant e-Documents or e-Ledgers cannot be submitted. The user is responsible for all consequences arising from failure to meet the applicable prerequisites and technical requirements.

– Logo Financial Technologies

16. -Logo Online Account Statement Application

Thanks to the Online Account Statement Application developed by eLogo, businesses using the compatible Logo ERP solutions can instantly monitor their bank, branch and account-based balance information in any currency from a single platform, and they can easily transfer their account activities in the banks integrated into the ERP application and create accounting records automatically. Click here to view the banks integrated with the application.

 - The system operates on monthly and yearly package fees. Package purchases are made through the order portal.
 - 30 Credits per month are charged for each integrated POS terminal. The first 5 POS terminal integrations are free, credit chare starts as of 6th POS terminal.
 - In the EHÖ transfer module, 1 credit is deducted for every 10 transactions. The first 2500 transactions are a gift.
 - In the Money Transfer module, one credit is deducted for every four transactions.
 - There is no bank, branch, account, IBAN definition limit for monthly and yearly packages.
 - The application runs with compatible versions of Logo Edge T-Series Basic, Logo Edge T-Series Standard and Logo Edge T-Series Enterprise.
17. -Logo e-Collection

Logo e-Collection, developed by Logo, enables companies to securely collect payments in a digital environment via credit cards or debit cards. Thanks to its integrated structure with Logo ERP, customers’ current account balances can be easily tracked, and received payments can be posted to accounting with a single click. Payments can be collected online through secure payment links sent to customers via email, SMS, and WhatsApp. In addition, companies can manage their collection processes through payment pages integrated into their websites and easily post received payments to their Logo ERP systems. With the B2B portal feature, companies can enable their partners to collect payments via the Logo e-Collection application. Furthermore, thanks to an integration developed by Logo, customers can easily make online payments through the “Pay Now” link added to e-Invoices. All collections made throughout these processes are carried out through the company’s own virtual POS agreements with banks, under the existing commission rates and settlement terms.

 - The system operates on annual package fees. There is no additional charge based on credits. Package purchases are made through the order portal.
 - All packages include all 5000 e-mail, 1000 SMS and 1000 Whatsapp links delivery options. Each package is valid only for one firm, firm increase package should be purchased for other/sub firms.
 - There is the right to define 1000 dealers in B2B portal package. After the first 1,000 dealers are defined, a dealer increase package must be purchased for each 1,000 dealers.
 - Virtual POS should be provided by the firm for the eLogo e-Collection solution. Virtual POS commission rates are determined within the framework of the agreement between the bank or payment institutions and the company that will use the eLogo e-Collection product.
 - Application works with compatible versions of following ERP products; Logo Edge T-Series Basic, Logo Edge T-Series Standard and Logo Edge T-Series Enterprise.

Additional Packages	Price
SMS Package (1000 pcs)	5.000
e-Mail Package (5000 pcs)	5.000
Whatsapp Package (1000 pcs)	5.000
Integration Package (e-Commerce / Web Site Integration)	34.000

– Additional Products and Services

18. Users of applications that write data without Customization Tools are required to obtain a Database Usage License.
