Notes to the interim condensed consolidated financial statements for the period ended 30 September 2015 (continued)

(Amounts expressed in Turkish Lira ("TL"), unless otherwise indicated)

1. Organization and nature of operations (continued)

The Company has purchased 50,1% of İntermat shares for 2.000.000 TL through Share Transfer and Option agreement signed on January 5, 2015. Within the framework of the agreement, the Company is entitled to purchase the remaining 49,9% of the shares for an amount which will be equal to the 50% of the sales revenue of İntermat through to the end of 2017. The transfer amount will be no less than TL 1.500.000 and no more than TL 3.500.000. İntermat has the right to sell the shares to the Company under the same terms. %49,90 shares of the "İntermat" were transferred to the Company on 28 July 2015 and the difference between TL 3.500.000 and TL 268.000 paid at the time of the transfer for an amount of TL 3.232.000 was accounted as long term other financial liabilities.

The Company has purchased 100% of Sempa shares for TL 3.000.000 through a share transfer agreement signed on June 18, 2015. Within the framework of the Share Transfer agreement; 50% of the positive difference between Sempa's sales revenue to be realized in 2015 and 2014 sales revenue amounting to TL 2.017.938 ("Base Performance Fee"), will be paid to Sempa's previous shareholders as a "Performance Fee" which does not exceed TL 500.000. Due to uncertainties, no provision has been booked in connection with the "Performance Fee" in the financial statements.

On February 20, 2014, the Company acquired the shares representing 80% of the capital of Logo Elektronik Ticaret Hizmetleri A.Ş. for TL 8.000.000 and the remaining 20% of shares for TL 1.914.632 on July 14, 2014 increasing its shareholding 100%. On October 22, 2014, the Company sold the shares representing 9,5% of the capital of Logo Elektronik Ticaret Hizmetleri A.Ş. for TL 950.000 under a loan and share procurement agreement.

The Company's Board of Directors resolved on July 22, 2009 to close Logo Business Solutions FZ-LLC due to the foreseen negative effects of the global crisis in 2009 on the Company's domestic and international sales and marketing activities and to execute international sales and marketing activities from the head office. As of September 30, 2015, the liquidation process has been substantially completed.

The Company's foreign sales and marketing activities are managed from its headquarters in Turkey.

Logo Yazılım and its subsidiaries (all together referred to as the "Group") operate in the software industry. Therefore segment reporting is not applicable.

Since the information related to the operational segments as of September 30, 2015 taking the operations' of the Group's consolidated financial statements in general and monetary significance into account is not reportable in terms of geographical segments outside of Turkey, is not disclosed in the condensed interim consolidated financial statements.

Notes to the interim condensed consolidated financial statements for the period ended 30 September 2015 (continued) (Amounts expressed in Turkish Lira ("TL"), unless otherwise indicated)

2. Basis of presentation of consolidated financial statements

2.1 Basis of presentation

2.1.1 Financial reporting standards

The accompanying interim financial statements of the Group have been prepared in accordance with the Turkish Accounting Standards ("TAS") promulgated by the Public Oversight Accounting and Auditing Standards Authority ("POA") in compliance with the communiqué numbered II-14.1 "Communiqué on the Principles of Financial Reporting In Capital Markets" (the Communiqué) announced by the CMB on June 13, 2013 which is published on Official Gazette numbered 28676. TAS consists of the Turkish Accounting Standards, Turkish Financial Reporting Standards and related supplements and interpretations. TAS/IFRS are updated in harmony with the changes and updates in International Financial and Accounting Standards ("IFRS") by the communiqués announced by the POA.

The condensed interim consolidated financial statements, the fair value indicated by financial investments and business emerged during the merger of tangible and intangible fixed in the assets, arising from the difference between the fair value and the carrying value is redrafted based on the historical cost basis, except for valuation.

With the decision taken on March 17, 2005, the CMB announced that, effective from January 1, 2005, the application of inflation accounting is no longer required for listed companies in Turkey. The Group's financial statements have been prepared in accordance with this decision.

2.1.2 Financial statements of subsidiaries operating in foreign countries

Financial statements of subsidiaries, operating in countries other than Turkey, are adjusted to TAS/IFRS for the purpose of fair presentation. Subsidiaries' assets and liabilities are translated into Turkish Lira from the foreign exchange rate at the balance sheet date and income and expenses are translated into Turkish Lira at the average foreign exchange rate. Exchange differences arising from the translation of the opening net assets and differences between the average and balance sheet dates are included in the "currency translation difference" under the shareholders' equity.

2.1.3 Basis of consolidation

The condensed interim consolidated financial statements prepared in accordance with the principles of consolidated financial statements for the year ended December 31, 2014 include the accounts for Logo Yazılım and its subsidiaries.

The table below sets out the subsidiaries of Logo Yazılım and ownership interests held by the Company at 30 September 2015 and 31 December 2014:

2. Basis of presentation of consolidated financial statements (continued)

2.1.4 Use of estimates

The condensed consolidated financial statements belonging to the ninemonth interim period ended September 30, 2015 were prepared using significant accounting estimates and assumptions consistent with accounting estimates described in detail on the Group’s financial statements as of December 31, 2014.

2.2 Summary of significant accounting policies

The condensed interim consolidated financial statements of the Group for the ninemonths period ended September 30, 2015 have been prepared in accordance with TAS 34 “Interim Financial Reporting”. Additionally, the accounting policies used in the preparation of the condensed interim consolidated financial statements for the period ended September 30, 2015 are consistent with those used in the preparation of annual consolidated financial statements for the year ended December 31, 2014. Accordingly, these condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2014.

2.3 Change in accounting policies

The new standards, amendments and interpretations

The accounting policies adopted in preparation of the interim condensed consolidated financial statements as at 30 September 2015 are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and TFRIC interpretations effective as of 1 January 2015. The effects of these standards and interpretations on the Group’s financial position and performance have been disclosed in the related paragraphs.

i) The new standards, amendments and interpretations which are effective as at 1 January 2015 are as follows:

TAS 19 Defined Benefit Plans: Employee Contributions (Amendment)

TAS 19 requires an entity to consider contributions from employees or third parties when accounting for defined benefit plans. The amendments clarify that, if the amount of the contributions is independent of the number of years of service, an entity is permitted to recognise such contributions as a reduction in the service cost in the period in which the service is rendered, instead of allocating the contributions to the periods of service. These amendments are to be retrospectively applied for annual periods beginning on or after 1 July 2014. The amendment did not have an impact on the consolidated financial statements of the Group.

Annual Improvements to TAS/TFRS

In September 2014, POA issued the below amendments to the standards in relation to “Annual Improvements - 2010–2012 Cycle” and “Annual Improvements - 2011–2013 Cycle. The changes are effective for annual reporting periods beginning on or after 1 July 2014.

2. Basis of presentation of consolidated financial statements (continued)

Annual Improvements - 2010–2012 Cycle

TFRS 2 Share-based Payment:

Definitions relating to performance and service conditions which are vesting conditions are clarified. The amendment is effective prospectively.

TFRS 3 Business Combinations

The amendment clarifies that all contingent consideration arrangements classified as liabilities (or assets) arising from a business combination should be subsequently measured at fair value through profit or loss whether or not they fall within the scope of IAS 39 (or IFRS 9, as applicable). The amendment is effective for business combinations prospectively.

TFRS 8 Operating Segments

The changes are as follows: i) An entity must disclose the judgements made by management in applying the aggregation criteria in IFRS 8, including a brief description of operating segments that have been aggregated and the economic characteristics (e.g., sales and gross margins) used to assess whether the segments are ‘similar’. ii) The reconciliation of segment assets to total assets is only required to be disclosed if the reconciliation is reported to the chief operating decision maker. The amendments are effective retrospectively.

TAS 16 Property, Plant and Equipment and TAS 38 Intangible Assets

The amendment to TAS 16.35(a) and TAS 38.80(a) clarifies that revaluation can be performed, as follows:

i) Adjust the gross carrying amount of the asset to market value or ii) determine the market value of the carrying amount and adjust the gross carrying amount proportionately so that the resulting carrying amount equals the market value. The amendment is effective retrospectively.

TAS 24 Related Party Disclosures

The amendment clarifies that a management entity – an entity that provides key management personnel services – is a related party subject to the related party disclosures. . In addition, an entity that uses a management entity is required to disclose the expenses incurred for management services. The amendment is effective retrospectively.

Annual Improvements – 2011–2013 Cycle

TFRS 3 Business Combinations

The amendment clarifies that: i) Joint arrangements are outside the scope of TFRS 3, not just joint ventures ii) The scope exception applies only to the accounting in the financial statements of the joint arrangement itself. The amendment is effective prospectively.

TFRS 13 Fair Value Measurement

The portfolio exception in TFRS 13 can be applied to financial assets, financial liabilities and other contracts within the scope of IAS 39 (or IFRS 9, as applicable). The amendment is effective prospectively.

TAS 40 Investment Property

The amendment clarifies the interrelationship of TFRS 3 and TAS 40 when classifying property as investment property or owner-occupied property. The amendment is effective prospectively.

The amendments did not have a significant impact on the interim condensed consolidated financial statements of the Group.

ii) Standards issued but not yet effective and not early adopted

Standards, interpretations and amendments to existing standards that are issued but not yet effective up to the date of issuance of the interim condensed consolidated financial statements are as follows. The Group will make the necessary changes if not indicated otherwise, which will be affecting the consolidated financial statements and disclosures, when the new standards and interpretations become effective.

TFRS 9 Financial Instruments – Classification and measurement

As amended in December 2012 and February 2015, the new standard is effective for annual periods beginning on or after 1 January 2018, with early adoption permitted. Phase 1 of this new TFRS introduces new requirements for classifying and measuring financial instruments. The amendments made to TFRS 9 will mainly affect the classification and measurement of financial assets and measurement of fair value option (FVO) liabilities and requires that the change in fair value of a FVO financial liability attributable to credit risk is presented under other comprehensive income. The Group will quantify the effect in conjunction with the other phases, when the final standard including all phases is adopted by POA.

TFRS 11 Acquisition of an Interest in a Joint Operation (Amendment)

TFRS 11 is amended to provide guidance on the accounting for acquisitions of interests in joint operations in which the activity constitutes a business. This amendment requires the acquirer of an interest in a joint operation in which the activity constitutes a business, as defined in TFRS 3 Business Combinations, to apply all of the principles on business combinations accounting in TFRS 3 and other TFRSs except for those principles that conflict with the guidance in this TFRS. In addition, the acquirer shall disclose the information required by TFRS 3 and other TFRSs for business combinations. These amendments are to be applied prospectively for annual periods beginning on or after 1 January 2016. Earlier application is permitted. The amendments will not have an impact on the financial position or performance of the Group.

TAS 16 and TAS 38 - Clarification of Acceptable Methods of Depreciation and Amortisation (Amendments to TAS 16 and TAS 38)

The amendments to TAS 16 and TAS 38, have prohibited the use of revenue-based depreciation for property, plant and equipment and significantly limiting the use of revenue-based amortisation for intangible assets. The amendments are effective prospectively for annual periods beginning on or after 1 January 2016. Earlier application is permitted. The amendments will not have an impact on the financial position or performance of the Group.

TAS 16 Property, Plant and Equipment and TAS 41 Agriculture (Amendment) – Bearer Plants

TAS 16 is amended to provide guidance that bearer plants, such as grape vines, rubber trees and oil palms should be accounted for in the same way as property, plant and equipment in TAS 16. Once a bearer plant is mature, apart from bearing produce, its biological transformation is no longer significant in generating future economic benefits. The only significant future economic benefits it generates come from the agricultural produce that it creates. Because their operation is similar to that of manufacturing, either the cost model or revaluation model should be applied. The produce growing on bearer plants will remain within the scope of TAS 41, measured at fair value less costs to sell. Entities are required to apply the amendments for annual periods beginning on or after 1 January 2016. Earlier application is permitted. The amendment is not applicable for the Group and will not have an impact on the financial position or performance of the Group.

TAS 27 Equity Method in Separate Financial Statements (Amendments to TAS 27)

In February 2015, Public Oversight Accounting and Auditing Standards Authority (POA) of Turkey issued an amendment to TAS 27 to restore the option to use the equity method to account for investments in subsidiaries and associates in an entity’s separate financial statements. Therefore, an entity must account for these investments either:

- At cost
 - In accordance with IFRS 9,
- Or
- Using the equity method defined in TAS 28

The entity must apply the same accounting for each category of investments. The amendment is effective for annual periods beginning on or after 1 January 2016. The amendments must be applied retrospectively. Early application is permitted and must be disclosed. The amendment is not applicable for the Group and will not have an impact on the financial position or performance of the Group.

TFRS 10 and TAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments)

In February 2015, amendments issued to TFRS 10 and TAS 28, to address the acknowledged inconsistency between the requirements in TFRS 10 and TAS 28 in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture, to clarify that an investor recognises a full gain or loss on the sale or contribution of assets that constitute a business, as defined in TFRS 3, between an investor and its associate or joint venture. The gain or loss resulting from the re-measurement at fair value of an investment retained in a former subsidiary should be recognised only to the extent of unrelated investors’ interests in that former subsidiary. An entity shall apply those amendments prospectively to transactions occurring in annual periods beginning on or after 1 January 2016. Earlier application is permitted. The amendment is not applicable for the Group and will not have an impact on the financial position or performance of the Group.

TFRS 10, TFRS 12 and TAS 28: Investment Entities: Applying the Consolidation Exception (Amendments to IFRS 10 and IAS 28)

In February 2015, amendments issued to TFRS 10, TFRS 12 and TAS 28, to address the issues that have arisen in applying the investment entities exception under TFRS 10 Consolidated Financial Statements. The amendments are applicable for annual periods beginning on or after 1 January 2016. Earlier application is permitted. The amendment is not applicable for the Group and will not have an impact on the financial position or performance of the Group.

2. Basis of presentation of consolidated financial statements (continued)

TAS 1: Disclosure Initiative (Amendments to TAS 1)

In February 2015, amendments issued to TAS 1. Those amendments include narrow-focus improvements in the following five areas: Materiality, Disaggregation and subtotals, Notes structure, Disclosure of accounting policies, Presentation of items of other comprehensive income (OCI) arising from equity accounted investments. The amendments are applicable for annual periods beginning on or after 1 January 2016. Earlier application is permitted. These amendments are not expected have significant impact on the notes to the consolidated financial statements of the Group.

Annual Improvements to TFRSs - 2012-2014 Cycle

In February 2015, POA issued, Annual Improvements to TFRSs 2012-2014 Cycle. The document sets out five amendments to four standards, excluding those standards that are consequentially amended, and the related Basis for Conclusions. The standards affected and the subjects of the amendments are:

- IFRS 5 Non-current Assets Held for Sale and Discontinued Operations – clarifies that changes in methods of disposal (through sale or distribution to owners) would not be considered a new plan of disposal, rather it is a continuation of the original plan
- IFRS 7 Financial Instruments: Disclosures – clarifies that i) the assessment of servicing contracts that includes a fee for the continuing involvement of financial assets in accordance with IFRS 7; ii) the offsetting disclosure requirements do not apply to condensed interim financial statements, unless such disclosures provide a significant update to the information reported in the most recent annual report
- IAS 19 Employee Benefits – clarifies that market depth of high quality corporate bonds is assessed based on the currency in which the obligation is denominated, rather than the country where the obligation is located
- IAS 34 Interim Financial Reporting –clarifies that the required interim disclosures must either be in the interim financial statements or incorporated by cross-reference between the interim financial statements and wherever they are included within the interim financial report.

The amendments are effective for annual periods beginning on or after 1 January 2016, with earlier application permitted. The Group is in the process of assessing the impact of the amendments on financial position or performance of the Group.

The new standards, amendments and interpretations that are issued by the International Accounting Standards Board (IASB) but not issued by Public Oversight Authority (POA)

The following standards, interpretations and amendments to existing IFRS standards are issued by the IASB but not yet effective up to the date of issuance of the financial statements. However, these standards, interpretations and amendments to existing IFRS standards are not yet adapted/issued by the POA, thus they do not constitute part of TFRS. The Group will make the necessary changes to its consolidated financial statements after the new standards and interpretations are issued and become effective under TFRS.

Annual Improvements – 2010–2012 Cycle

IFRS 13 Fair Value Measurement

As clarified in the Basis for Conclusions short-term receivables and payables with no stated interest rates can be held at invoice amounts when the effect of discounting is immaterial. The amendment is effective immediately.

Annual Improvements – 2011–2013 Cycle

IFRS 15 Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15 Revenue from Contracts with Customers. The new five-step model in the standard provides the recognition and measurement requirements of revenue. The standard applies to revenue from contracts with customers and provides a model for the sale of some non-financial assets that are not an output of the entity's ordinary activities (e.g., the sale of property, plant and equipment or intangibles). IFRS 15 original effective date was 1 January 2017. However, in July 2015, IASB decided to defer the effective date to be effective for reporting periods beginning on or after 1 January 2017, with early adoption permitted. Entities will transition to the new standard following either a full retrospective approach or a modified retrospective approach. The modified retrospective approach would allow the standard to be applied beginning with the current period, with no restatement of the comparative periods, but additional disclosures are required. The Group is in the process of assessing the impact of the standard on financial position or performance of the Group.

IFRS 9 Financial Instruments - Final standard (2014)

In July 2014 the IASB published the final version of IFRS 9 Financial Instruments. The final version of IFRS 9 brings together the classification and measurement, impairment and hedge accounting phases of the IASB's project to replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 is built on a logical, single classification and measurement approach for financial assets that reflects the business model in which they are managed and their cash flow characteristics. Built upon this is a forward-looking expected credit loss model that will result in more timely recognition of loan losses and is a single model that is applicable to all financial instruments subject to impairment accounting. In addition, IFRS 9 addresses the so-called 'own credit' issue, whereby banks and others book gains through profit or loss as a result of the value of their own debt falling due to a decrease in credit worthiness when they have elected to measure that debt at fair value. The Standard also includes an improved hedge accounting model to better link the economics of risk management with its accounting treatment. IFRS 9 is effective for annual periods beginning on or after 1 January 2018. However, the Standard is available for early application. In addition, the own credit changes can be early applied in isolation without otherwise changing the accounting for financial instruments. The Group is in the process of assessing the impact of the standard on financial position or performance of the Group.

3. Business combinations

e-Logo acquisition

On February 20, 2014, the Company acquired the shares representing 80% of the capital of Logo Elektronik Ticaret Hizmetleri A.Ş. for TL 8.000.000 and signed a put option agreement for the acquisition of the remaining 20% for TL 2.000.000 calculated in USD which was agreed upon by the parties. According to the related agreement, the remaining 20% of shares were acquired on July 14, 2014 for TL 1.914.632. The whole amount of the purchase price was paid in advance. The share transfer agreement took effective as of February 20, 2014. The gain directly associated with the purchase amounting to 243.883 TL arising from bargain purchase has been included in income gained from investment activities.

Cost amounting to TL 72.553 which is directly related with the purchase transaction has been recognized under General administration expenses account.

Intermat acquisition

The Company has purchased 50,1% of İntermat shares for 2.000.000 TL through Share Transfer and Option agreement signed on January 5, 2015.

Referring to this acquisition, Group has applied TFRS 3 "Business Combinations" standard in accounting for business combinations of İntermat as a subsidiary. As of 30 September 2015, fair values of identifiable assets and assumed identifiable liabilities acquired with the scope of business combinations are identified with draft fair value measurement report. These items are reported over the temporary amounts (on provisional basis) on the consolidated financial statements. The additions and corrections of fair values of the acquired identifiable assets, liabilities and contingent liabilities are limited to 12 months from the date of acquisition.

The identifiable assets acquired and liabilities assumed were booked over their following values:

Total assets	539.268
Intangible assets - identifiable assets	4.475.482
Total liabilities	1.022.733
<hr/>	
Fair value of net assets	3.992.016
Less: purchase consideration	2.000.000
Less: non-controlling interest	1.992.016

The Group has measured the non-controlling interests at İntermat over the recognized proportionate share of net definable assets of the company.

(Amounts expressed in Turkish Lira ("TL"), unless otherwise indicated)**

3. Business combinations (continued)

Of the identifiable assets determined as a result of İntermat's purchase price allocation study, the technology developed is amortised over seven years, customer relations are amortised over twelve years.

Detail of cash outflows due to purchase as of 30 September 2015 is as follows:

Purchase price – cash paid in 2015	2.000.000
Cash and cash equivalents – acquired	11.541
Cash outflow due to purchase, net	1.988.459

Within the framework of the agreement, the Company is entitled to purchase the remaining 49,9% of the shares for an amount which will be equal to the 50% of the sales revenue of İntermat through to the end of 2017. The transfer amount is to be no less than TL 1.500.000 and no more than TL 3.500.000. İntermat has the right to sell the shares to the Company under the same terms. %49,90 shares of the "Intranet" were transferred to the Company on 28 July 2015 and the difference of 3.500.000 and 268.000 TL paid at the time of the transfer for an amount of 3.232.000TL was accounted as long term other financial liabilities.

Sempa acquisition

The Company has purchased 100% of Sempa shares for 3.000.000 TL through a share transfer agreement signed on June 18, 2015 and has become Sempa's sole shareholder. Full purchase price was paid in advance. The share transfer agreement entered into force as of June 18, 2015. TL 856.631 that was paid in scope of the acquisition in the measurement period was added to purchase price.

Within the framework of the Share Transfer agreement signed on June 18, 2015; 50% of the positive difference between Sempa's sales revenue to be realized in 2015 and the 2014 sales revenue amounting to 2.017.938 TL ("Base Performance Fee"), up to 500.000 TL will be paid to Sempa's previous shareholders as a "Performance Fee" which will not exceed 500.000 TL.

In accordance with the Share Transfer Agreement signed by the Group and Sempa, cash amount to be acquired at the share transfer date of September 18, 2015 by the Company is limited to 250.000 TL and is referred to as the "Net Cash Amount". A commitment was made in relation to the return of cash and cash equivalents other than "Net Cash Amount" belonging to Sempa's previous shareholders to be taken place at the transfer date.

Referring to this acquisition, Group has applied TFRS 3 "Business Combinations" standard in accounting for business combinations of Sempa as a subsidiary. As of 30 September 2015, fair values of identifiable assets and assumed identifiable liabilities acquired with the scope of business combinations are identified with draft fair value measurement report. These items are reported over the temporary amounts (on provisional basis) on the consolidated financial statements. The additions and corrections of fair values of the acquired identifiable assets, liabilities and contingent liabilities are limited to 12 months from the date of acquisition.

Provision for unused vacation	1.550.983	1.320.896
	4.622.009	3.867.958

The movement of unused vacation liability at 30 September 2015 and 2014 is as follow:

	2015	2014
1 January	1.320.896	1.496.506
Acquisition of subsidiary	-	100.282
Increase in the period	230.087	(261.796)
30 September 2015	1.550.983	1.334.992

Provision for employment termination benefits is calculated as explained below.

Under Turkish Labour Law, the Company is required to pay termination benefits to each employee who has completed one year of service and whose employment is terminated without due cause, is called up for military service, dies or who retires after completing 25 years of service (20 years for women) and achieves the retirement age (58 for women and 60 for men). Since the legislation was changed on 23 May 2002 there are certain transitional provisions relating to length of service prior to retirement.

The amount payable consists of one month's salary limited to a maximum of TL 3.828 (December 2014: TL 3.438) for each year of service at 30 September 2015. The liability is not funded, as there is no funding requirement.

**Notes to the interim condensed consolidated financial statements
for the period ended 30 September 2015
(Amounts expressed in Turkish Lira (“TL”), unless otherwise indicated)**

14. Provision for employee benefits (continued)

The provision has been calculated by estimating the present value of the future probable obligation of the Company arising from the retirement of the employees. Turkish Financial Reporting Standards require that actuarial valuation methods to be developed to estimate the employee termination benefit provision. The following actuarial assumptions have been used in the calculation of the total provision:

	30 September 2015	31 December 2014
Net discount rate	3,33%	3,33%
Turnover rate to estimate the probability of retirement	95%	90%

The principal assumption is that maximum liability of employee termination benefit for each year of service will increase in line with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation. The maximum amount of TL 3.828 which is effective from 1 September 2015 has been taken into consideration in calculating the reserve for employment termination benefit of the Company.

The movements in the provision for employment termination benefits during the periods ended 30 September 2015 and 2014 were as follows:

	2015	2014
1 January	2.547.062	2.233.283

The shares representing capital are categorized as group A and B. There are privileges given to group A shares such as election of minimum of more than half of the members of the Board of Directors of the parent, chairman of the Board of Directors and auditors. Adjustment to share capital represents the restatement effect of cash contributions to share capital.

The legal reserves consist of first and second reserves, appropriated in accordance with the Turkish Commercial Code ("TCC"). The TCC stipulates that the first legal reserve is appropriated out of statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the Company's paid-in share capital. The second legal reserve is appropriated at the rate of 10% per annum of all cash distributions in excess of 5% of the paid-in share capital. Under the TCC, the legal reserves can only be used to offset losses and are not available for any other usage unless they exceed 50% of paid-in share capital.

The aforementioned amounts shall be classified in "Restricted Reserves" in accordance with TAS/TFRS. The analysis of restricted reserves at 30 September 2015 and 31 December 2014 is as follows:

for the period ended 30 September 2015
(Amounts expressed in Turkish Lira ("TL"), unless otherwise indicated)**

16. Equity (continued)

In addition, in accordance with the CMB regulations effective until 1 January 2008, "Capital, Share Premiums, Legal Reserves, Special Reserves and Extraordinary Reserves" were recorded at their statutory carrying amounts and the inflation adjustment differences related to such accounts were recorded under "inflation adjustment differences" at the initial application of inflation accounting. "Equity inflation adjustment differences" could have been utilised only in issuing bonus shares and offsetting accumulated losses, carrying amount of extraordinary reserves could have been utilised in issuing bonus shares, cash dividend distribution and offsetting accumulated losses.

In accordance with the Communiqué No:XI-29 and related announcements of CMB, effective from 1 January 2008, "Share capital", "Restricted Reserves" and "Share Premiums" shall be carried at their statutory amounts. The valuation differences arisen due to implementing the communique (such as inflation adjustment differences) shall be disclosed as follows:

- if the difference is arising due to the inflation adjustment of "Paid-in Capital" and not yet been transferred to capital should be classified under the "Inflation Adjustment To Share Capital";
- if the difference is due to the inflation adjustment of "Restricted Reserves" and "Share Premium" and the amount has not been utilised in dividend distribution or capital increase yet, it shall be classified under "Retained Earnings",

Other equity items shall be carried at the amounts calculated based on TAS/TFRS.

Capital adjustment differences have no other use other than being transferred to share capital.

Dividend Distribution

Listed companies distribute dividend in accordance with the Communiqué No. II-19.1 issued by the CMB which is effective from 1 February, 2014.

Companies distribute dividends in accordance with their dividend payment policies settled and dividend payment decision taken in general assembly and also in conformity with relevant legislations. The communiqué does not constitute a minimum dividend rate. Companies distribute dividend in accordance with the method defined in their dividend policy or articles of incorporation. In addition, dividend can be distributed by fixed or variable instalments and advance dividend can be paid in accordance with profit on interim financial statements of the Company.

**Notes to the interim condensed consolidated financial statements
for the period ended 30 September 2015
(Amounts expressed in Turkish Lira (“TL”), unless otherwise indicated)**

16. Equity (continued)

Companies should include at least the following in their profit distribution policies

- a) Whether dividends will be distributed, and if distributed, the dividend distribution rate for shareholders and for others participating in the distribution.
- b) Payment type of dividend distribution.
- c) Time of dividend distribution; on condition that the distribution procedures to be started at the latest of the end of the annual period in which general assembly meeting was held in which the distribution was agreed upon.
- d) Whether dividend advances will be distributed, and if distributed, the related principles.

In accordance with the Turkish Commercial Code (TCC), unless the required reserves and the dividend for shareholders as determined in the article of association or in the dividend distribution policy of the company are set aside, no decision may be made to set aside other reserves, to transfer profits to the subsequent year or to distribute dividends to the holders of usufruct right certificates, to the members of the board of directors or to the employees; and no dividend can be distributed to these persons unless the determined dividend for shareholders is paid in cash.

As a dividend distribution policy, the Company, in line with the ongoing regulations and its financial resources, along with its long-term corporate strategy, investment plans and financing policies, and considering its profitability and its cash position and provided it can be met from the profit in the statutory records intends to distribute upto 55% of the distributable profit calculated in accordance with Capital Market Regulations to its shareholders; dividend distribution may be realized in cash or by capital increase through bonus shares or partly in cash and partly through bonus shares. In the event that the dividend amount is less than 5% of the paid-in capital then such amount will not be distributed and will be retained within the company.

The part of the accumulated losses of the companies exceeding the total of retained earnings, general legal reserves including premiums related to shares and the amounts arising from the adjustment of equity items except for capital in accordance with inflation accounting is accounted for as discount items in the calculation of net distributable profit for the period

The Ordinary General Meeting held on April 30, 2015 as a result of the Company, TL 15.000.000 from the net distributable profit in 2014 decided to distribute a gross cash dividend. Corporate tax

Turkish tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, provisions for taxes, as reflected in these consolidated financial statements, have been calculated on a separate-entity basis.

Turkish Corporate Tax Law has been amended by Law No. 5520 dated 13 September 2006. Most of the articles of this new Law No. 5520 have come into force effective from 1 January 2006. The Corporation tax rate for 2015 is 20% (2014: 20%).

for the period ended 30 September 2015
(Amounts expressed in Turkish Lira ("TL"), unless otherwise indicated)**

23. Current and deferred income taxes (continued)

Corporation tax rate is applicable on the total income of the companies after adjusting for certain disallowable expenses, income tax exemptions (participation exemption etc.) and income tax deductions (for example research and development expenses deduction). No further tax is payable unless the profit is distributed.

Dividends paid to non-resident corporations, which have a place of business in Turkey, or resident corporations are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 15%. An increase in capital via issuing bonus shares is not considered as a profit distribution and thus does not incur withholding tax.

Corporations are required to pay advance corporation tax quarterly at the rate of 20% on their corporate income. Advance tax is payable by the 17th of the second month following each calendar quarter end. Advance tax paid by corporations is credited against the annual corporation tax liability. The balance of the advance tax paid may be refunded or used to set off against other liabilities to the government. In Turkey, there is no procedure for a final and definitive agreement on tax assessments. Companies file their tax returns within the 25th of the fourth month following the close of the financial year to which they relate.

In Turkey, there is no procedure for a final and definitive agreement on tax assessments. Companies file their tax returns within the 25th of the fourth month following the close of the financial year to which they relate.

Tax returns are open for 5 years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

Under the Turkish taxation system, tax losses can be carried forward to offset against future taxable income for up to 5 years. Tax losses cannot be carried back to offset profits from previous periods.

There are many exemptions in Corporate Tax Law regarding corporations. Those related to the Company are explained below:

In accordance with Tax Law No: 5035 item 44, that amends "Technology Development Regions Law" No: 4691, corporate and income taxpayers operating in technology development regions are exempt from corporate and income tax until 31 December 2023.

The investment allowance, which has been applied for many years and calculated as 40% of property plant and equipment acquisitions exceeding a certain amount, was annulled with the Law No, 5479 dated 30 March 2006, However, in accordance with the temporary Law No, 69 added to the Income Tax Law, corporate and income taxpayers can offset the investment allowance amounts present as of 31 December 2005, which could not be offset against taxable income in 2005 and:

- a) In accordance with the investment certificates prepared for applications made before 24 July 2003, investments to be made after 1 January 2006 in the scope of the certificate regarding the investments that began in the scope of additional articles 1, 2, 3, 4, 5 and 6 of Income Tax Law No: 193 before it was repealed with the Law No, 4842 dated 9 July 2003, and
- b) investment allowance amounts to be calculated in accordance with legislation effective at 31 December 2005 related to investments which exhibit a technical and economic and integrity and which were started prior to 1 January 2006 in the scope of Income Tax Law 193 repealed 19th article, only against the income related to the years 2006, 2007 and 2008, in accordance with the legislation at 31 December 2005 (including provisions related to tax rates).

26. Nature and extent of risks arising from financial instruments

26.1 Financial Risk Management

Credit Risk

Ownership of financial assets involves the risk that counterparties may be unable to meet the terms of their agreements. These risks are managed by limiting aggregate risk from any individual counterparty and obtaining sufficient collateral where necessary.

Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. Due to the dynamic nature of the underlying business the Company aims at maintaining flexibility in funding by keeping committed credit lines available. The company management holds adequate cash and credit commitment that will meet the need cash for recent future in order to manage its liquidity risk. In this context the Company has credit limit from bank amounting to TL 100.000.000 that the company can utilize whenever needed.

The following table presents the maturity of Company’s non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of non-derivative financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows. The table has been drawn up based on the undiscounted net cash inflows/(outflows) on the derivative instrument that settle on a net basis and the undiscounted gross inflows and (outflows) on those derivatives that require gross settlement. When the amount payable or receivable is not fixed, the amount disclosed has been determined by reference to the projected interest rates as illustrated by the yield curves existing at the reporting date.

26. Nature and extent of risks arising from financial instruments (continued)

Interest rate risk

The Company is exposed to interest rate risk through the impact of rate changes on interest bearing liabilities and assets. These exposures are managed by using natural hedges that arise from offsetting interest rate sensitive assets and liabilities.

The Company's interest rate sensitive financial instruments are as follows:

	30 September 2015	31 December 2013
<u>Financial instruments with fixed interest rate</u>		
Financial assets		
- Designated at fair value through profit or loss	10.681.250	24.583.880
Financial liabilities	3.385.084	3.385.084
<u>Financial instruments with floating interest rate</u>		
Financial assets	449.981	67.980
Financial liabilities	-	20.127.299

Financial assets designated as fair value through profit or loss consists of fixed interest rate TL and foreign currency denominated time deposits with maturity less than three months and liquid funds.

At 30 September 2015, if interest rates of bank loans with variable interest rates has strengthened/weakened by 500 base points (5%) with all other variables held constant, income before tax would have been TL 27.101.

Funding risk

The ability to fund the existing and prospective debt requirements is managed as necessary by obtaining adequate committed funding lines from high quality lenders.

Ratio of hedging of import/export and net foreign currency liability

TL equivalent of import and exports for the periods ended 30 September 2015 and 2014 is as follows:

26.2 Capital risk management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may pay out dividends, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Company monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including borrowings, accounts payable and due to related parties, as shown in the consolidated balance sheet) less cash and cash equivalents. Total capital is calculated as equity, as shown in the consolidated balance sheet, plus net debt.

	30 September 2015	31 December 2014
Total bank borrowings and trade payables	7.121.363	29.366.839
Less: Cash and cash equivalents (Note 4)	(33.265.554)	(48.639.563)

Total equity	107.824.153	86.142.497
Net capital	81.679.962	66.869.773
Debt/equity ratio	(32)%	(29)%

27. Financial instruments

Fair value is the amount at which financial instruments could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and is best evidenced by a quoted market price, if one exists.

The estimated fair values of financial instruments have been determined by the Company, using available market information and appropriate valuation methodologies. However, judgement is necessarily required to interpret market data to estimate the fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the company could realize in a current market exchange.

The following methods and assumptions were used to estimate the fair value of the financial instruments for which it is practicable to estimate fair value.

**Notes to the interim condensed consolidated financial statements
for the period ended 30 September 2015
(Amounts expressed in Turkish Lira (“TL”), unless otherwise indicated)**

27. Financial instruments (continued)

Financial assets

The fair value of the foreign currency denominated amounts, which are translated by using the exchange rates prevailing at period-end, is considered to approximate their fair value.

The fair values of certain financial assets carried at cost including cash and due from banks, deposits with banks and other financial assets are considered to approximate their respective carrying values due to their short-term nature.

The trade receivables are carried at amortized cost using the effective yield method less provision for doubtful receivables, and hence are considered to approximate their fair values.

Financial liabilities

The fair value of short-term funds borrowed and other monetary liabilities are considered to approximate their respective carrying values due to their short-term nature.

The Group classifies the fair value measurement of each class of financial instruments according to the source, using the three-level hierarchy, as follows:

Level 1: Market price valuation techniques for the determined financial instruments traded in markets (unadjusted)

Level 2: Other valuation techniques includes direct or indirect observable inputs

Level 3: Valuation techniques does not contains observable market inputs

Fair value hierarchy table as at 30 September 2015 is as follows:

Financial assets at fair value through profit or loss:	Level 1	Level 2	Level 3
Financial assets	449.981	-	-

Fair value hierarchy table as at 31 December 2014 is as follows:

Financial assets at fair value through profit or loss:	Level 1	Level 2	Level 3
Financial assets	-	67.980	-
