<b>Explanations</b>	

Within the framework of our company's goal of continuing its investments and growth in the field of Fintech, our eService platform eLogo is expanding its existing services with open banking and embedded financial services. In this context, Logo Ödeme Hizmetleri A.Ş. ("Logo Payment Services" ) was established within our Group on November 29, 2022 to operate within the scope of the new regulations on open banking.

Logo Payment Services has applied for a license, and today has presented the necessary documentation to the Central Bank of the Republic of Türkiye for the intelligence review procedure, to operate as a payment company offering payment services as per Law number 6493's article 12, paragraph 1, subparagraph f and g.

Our Fintech service revenue model will include annual subscription and transaction-based coin usage revenues and will provide a substantial contribution to Logo's SaaS revenues.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
