  - When switching to other products in the same segment, with or without a fee, the LEM validity for the previous product will be transferred to the new product (with the same start and end dates).
  - When upgrading to upper segments with a fee, 1-year free LEM is assigned to the new product starting from the switch date.
- 6 The LEM is valid for one year. The renewal period will start as of the end date of previous LEM.
- 7 Users who renew their LEM subscription before or within 30 days after the end date and in a regular manner may benefit from the loyalty discount and get LEM with advantageous prices.
- 8 In case the LEM has expired, the installation of additional products purchased with the "price applied for a valid LEM" cannot be performed.

- 10 The price of LEM is calculated as per the latest configuration in the product (main package, module, user/employee/firm increase). User/employee/firm increases are included in the price calculation of LEM as of the date of purchase. The price of LEM is calculated considering the end date of the LEM subscription for options (modules).
