Logo approved ecosystem solutions suggested price list

Valid from September 3, 2026.

General explanations

1. All prices and price-related terms specified in this price list—including, but not limited to, license prices, training prices, and training durations—are for guidance purposes only and are non-binding.
2. All prices are stated in Turkish lira (TL) and exclude VAT.
3. Renewal fees will be calculated based on the current list prices applicable at the time of renewal. Logo reserves the right to revise its prices.

– Flexible Payment Plan

4. The flexible payment plan is a subscription model that offers customers various payment options.
5. Customers may continue using the product by paying the initial subscription fee in the first year and the applicable renewal fees in subsequent years based on their selected plan. Additional users, modules, e-solutions, and associated functional solutions purchased at a later date are also subject to the initial subscription fee in the first year and renewal fees in subsequent years.
6. The subscription is valid for one year. The renewed subscription period begins on the date the previous license term expires. Renewals will be processed based on the current commercial terms and prices.
7. If the subscription is not renewed by the renewal date, access to the product will be suspended, and the product will remain unavailable until the subscription is renewed. A 30-day period during which loyalty discounts are retained begins on this date. If the subscription is renewed within this period, a 10% late renewal fee will be added to the renewal fee, and the product will be reactivated once the renewal process is completed. If the 30-day period expires, the right to loyalty discounts will be reset, and a final 60-day period will be granted for renewal. A 10% late renewal fee will also be added to renewals completed within this 60-day period; however, loyalty discounts will no longer apply at this stage.
8. If the subscription is not renewed within the total 90-day period following the renewal date, the customer's license will be permanently terminated, and the right to renew the license will be revoked. To use the product again, the customer must purchase a new subscription at the applicable first-year subscription prices.

– Training

8. Training services cover product usage and are provided by certified business partners. Requests involving configuration, reporting, and customization are evaluated separately.
9. It is strongly recommended that training services be obtained exclusively from authorized Logo business partners and certified training specialists listed on Logo's corporate website (www.logo.com.tr).

LivaBudget Enterprise	688.500	89.600	344.500	142.000	179.100	170.800
LivaBudget Enterprise Company Increase	175.500	22.900	87.800	36.200	45.700	43.600

– Descriptions

1. Approved ecosystem solutions are solutions developed by Logo Ecosystem Solution Development Partners and integrated with Logo products. The solutions can only operate in integration with the Logo products specified above.
2. Retail T-POS is a solution developed by Kalem Yazılım. It enables products with or without barcodes to be sold quickly and easily using a touchscreen or a standard PC.
3. Fuel Management is a solution developed by Kalem Yazılım. Through its integration with Logo products, all market and fuel transactions of a station can be managed and reported to the customer through a single application.
4. DocPlace is a solution developed by Kets Yazılım. It is a comprehensive document management system that enables critical documents to be easily organized and stored. DocPlace Basic can only operate with an ERP solution, whereas DocPlace Pro can also operate independently of ERP.
5. Collector is a solution developed by Mare Yazılım. It enables data to be sent to different companies, data to be transferred between group companies, and cross-slip and document transfers to be made between defined companies.
6. Bank Statement Transfer is a solution developed by Mare Yazılım. It enables bank statements received in Excel format to be transferred to Logo.
7. DEYS is a solution developed by Prolog Yazılım. It is a fully integrated warehouse management automation solution developed to address the current warehouse management challenges of small and medium-sized enterprises. It works with serial and EAN barcodes and is supported by handheld terminals.
8. LivaBudget is a solution developed by DataLiva. LivaBudget is a ready-to-use Corporate Performance Management (CPM) solution compliant with COA, IFRS and GAAP standards. Its flexible industry- and company-based structure enables budgeting, forecasting and scenario processes to be managed quickly and accurately. Through bidirectional integration with ERP, CRM and third-party systems, it supports managers in making sound decisions with data-driven analyses, forecasts and comparisons.
9. For transitions from Logo Mind Budget to LivaBudget, a 25% discount will apply to transitions to the LivaBudget Basic package, a 20% discount to transitions to the LivaBudget Standard package, and a 15% discount to transitions to the LivaBudget Enterprise package for one year from the publication date specified in the price list.

Logo approved ecosystem solutions suggested price list - subscriptions

Valid from September 3, 2026.

General Descriptions

1. All price and price-related conditions in this price list (including but not limited to license prices, training prices and training durations) are advisory only and are non-binding.
2. All prices are in Turkish Lira (TL); VAT is not included in the prices.
3. Approved ecosystem solutions are available on a monthly or annual subscription basis. Monthly and annual prices for main packages and additional users are specified in the price list.

– Training

4. Training sessions regarding the use of products are organized by certified specialists. Requests for diagnostics, reporting and customization are evaluated separately.
5. It is strongly recommended that training services only be obtained from authorized Logo Business Partners and certified training specialists listed on the Logo corporate website (www.logo.com.tr).

– Descriptions

1. Approved ecosystem solutions are solutions developed by Logo Ecosystem Solution Development Partners and integrated with Logo products. The solutions can only operate in integration with the Logo products specified above, and support is provided by the Ecosystem Solution Development Partner. The license agreement for the product is also provided by the Ecosystem Solution Development Partner.
2. Additional users and modules purchased under the subscription during the year are calculated as 'annual price / 12 * number of months remaining until subscription renewal', excluding the month in which the request is made, and are added to the main package license.
3. GastroPOS is a solution developed by Zensoft Yazılım. It digitizes all order processes in cafés and restaurants. The solution is offered in Basic, Standard and Enterprise packages. The Basic package is limited to a maximum of 6 users, while the Standard package is limited to a maximum of 21 users. GastroPOS can operate independently of ERP and can also be integrated with Logo Edge T-Series solutions.
4. Payer Marketplace Integration is a solution developed by Payer Yazılım and sold through logo.cloud. It provides robust integration between popular marketplaces and e-commerce stores, enabling all products offered for sale to be managed through a single platform. It can be integrated with Logo Edge T-Series, Logo Edge N-Series, Logo Edge J-Series and Logo Cloud solutions.
5. Finstant Bank Account Management is a solution developed by FİNSTANT ÖDEME KURULUŞU A.Ş. (Kronosoft). It operates independently of ERP and enables businesses to view current balances, account transactions and POS transactions for their accounts at all banks in real time through a single application, regardless of time and location.
6. Finstant Online Bank Statement Transfer is positioned as a module of Finstant Bank Account Management, developed by FİNSTANT ÖDEME KURULUŞU A.Ş., and therefore cannot be purchased separately. It can be used with an unlimited number of banks and companies. It is limited to 50,000 account and POS transactions per month and 600,000 account and POS transactions per year. It can be integrated with Logo Edge T-Series and Logo Edge N-Series solutions.
7. Narbulut Data Backup is a solution developed by Narbulut Yazılım. It operates independently of ERP and provides quick and easy access to data in disaster scenarios such as file loss on computers and servers, user errors, cyberattacks, and system or hardware failures. Each main package is valid for one user. Capacity refers to the backup space assigned to the user. A main package must first be purchased before a capacity increase can be added. For monthly subscriptions, a renewal order must be placed each month to continue using the solution. It is not possible to switch from an annual subscription to a monthly subscription; however, switching from a monthly subscription to an annual subscription is possible.
8. A free 5 GB individual workspace is provided to each user with the BackupNow data backup product.
9. Narbulut Individual Workspace enables you to create your own content, share it with internal and external users, and create a personalized workspace.
10. Narbulut Shared Workspace enables you to create Word, Excel and PowerPoint documents online, share them with internal or external users, and edit them together with your colleagues. It allows team members to work simultaneously on various files and folders. You can access current data from anywhere and work securely without requiring costly hardware or software.
11. Masraff | Smart Expense Management Platform is a solution developed by Sorusana Bilişim, sold through logo.cloud and priced annually for a minimum of 10 users. With Masraff's cloud-based, AI-powered platform, businesses can monitor expense budgets in real time and benefit from features such as fast, automated expense entry and mobile approval. It can be integrated with Logo Edge T-Series and Logo Edge N-Series solutions.
12. PirCloud | Online Project, Construction Site and Business Management Platform is a solution developed by Pir Yazılım, priced annually and sold through logo.cloud. By connecting project and construction sites with company headquarters, PirCloud ensures process integrity and a high level of digitalization between headquarters and project sites, saving time and significantly increasing efficiency. It can operate independently of ERP and can also be integrated with Logo Edge T-Series and Logo Edge N-Series solutions.
13. As of September 5, 2025, the PirCloud | Online Project, Construction Site and Business Management Platform Standard Package includes Project Procurement Planning Management, Project Approval and Workflow, Employee Data and OHS Document Tracking, TAY Vehicle Management, Asset and Assignment Management, and Field and Construction Site features.
14. Payer Cargo Integration is a Logo-approved ecosystem solution and a cloud-based service developed by the Ecosystem Solution Development Partner Payer Yazılım. Product support is provided by the Ecosystem Solution Development Partner. It can be integrated with Logo Edge T-Series, Logo Edge N-Series, Logo Edge J-Series, Logo Cloud and Logo Edge WMS Platform solutions, as well as the cargo companies Aras, City, HepsiJet, MNG, PTT, SENDEO, UPS and Yurtiçi Kargo.
15. The Payer Core package includes the following features: Marketplace Order Integrations, E-Invoice Integrations, Pre-Accounting Integrations, Order and Invoice Management, E-Invoice Printing (Single/Bulk), Unlimited Product Limit, and Automatic Transfer of E-Invoices to Marketplaces (only for e-invoices issued through Logo).
16. The Payer Flex package includes the following features: Marketplace Order Integrations, E-Invoice Integrations, Pre-Accounting Integrations, ERP Integrations, Return/Cancellation Management, Order and Invoice Management, Transfer of Generated E-Invoices to Marketplaces, E-Invoice Printing (Single/Bulk), Automatic E-Invoice Creation, Unlimited Product Limit, Automatic Stock Synchronization, Bulk/Single Product Transfer from Marketplaces, Bulk Transactions (excluding MP product submission), Excel Operations, Exchange Rate-Based Pricing, Automatic Transfer of E-Invoices to Marketplaces (only for e-invoices issued through Logo), Support Tickets, Telephone Support, Written and Video Training Documents, and Reporting. The Flex package can also be enhanced with the modules specified in the list.

– Product Transitions

17. When a user upgrades an existing main package to a higher-tier product, the difference between the current list prices of the approved ecosystem solutions linked to the main package and the current list prices of the higher-tier product is charged.
