

Logo-approved ecosystem solutions suggested price list

Valid from July 6, 2024

General explanations

- All prices and price-related conditions (including license prices, training prices, and training durations, but not limited to these) in this price list are only advisory and are not binding.
- All prices are in Turkish Lira (TL), VAT is not included in the prices.
- Renewal fees will be calculated based on the current list prices during the renewal periods. Logo Software reserves the right to update prices.
 - Flexible Payment Plan
- Flexible payment plan is a subscription model that offers different payment plans to customers.
- Customers will be able to continue using the product by paying the initial subscription fee in their first years and renewal fees according to the plan they choose in the following years. Any subsequent user increases, modules, e-solutions, and related functional solutions also require them to pay the first year's subscription fee and subscription renewal fees in
- The subscription validity period is 1 year. The renewal date starts from the date when the previous license usage period ended.
- They will continue to subscribe to products at advantageous prices by benefiting from the loyalty discount, renewing their renewals on the renewal date or within 30 days following the renewal date, and regular renewing users; if no renewal is made after the 30-day period, the loyalty discount will end.
- If renewal is not made within 90 days following the renewal date, the product usage license will expire. If the customer wants to use the product again after the 90th day, they will need to start a new subscription.
- You can access the transition and restriction details of the flexible payment plan here.
 - Training
- The trainings are related to product usage and are given by certified business partners. Requests such as identification, reporting, and adaptation are also evaluated.
- It is strongly recommended to receive training services only from authorized Logo business partners and certified training experts located on the Logo corporate website (www.logo.com.tr).

– Descriptions

- Approved ecosystem solutions are solutions developed by the Logo solution development partner and integrated with Logo products. Solutions can only work in integration with the Logo products mentioned above.
- Retail T-Pos; It is a solution developed by Kalem Software. It is a solution that enables very simple and fast sales of products with or without barcodes on the touch screen or a normal PC.
- Fuel Management; It is a solution developed by Kalem Software. Thanks to its integration with Logo products, it is a solution where all market and fuel transactions of the station can be presented and reported to the customer with a single program.
- DocPlace; It is a solution developed by Kets Software. It is a rich document management system. It provides easy editing and storage of critical documents. While DocPlace Basic can only work with ERP, DocPlace PRO can work without being connected to ERP.
- Collector; It is a solution developed by Mare Software. It provides data transmission to different companies, data transfer between group companies, cross receipt and document sending between defined companies.
- Bank Statement Transfer; It is a solution developed by Mare Software. It is an application that enables the transfer of bank statements to Logo in excel format.
- DEYS; It is a solution developed by Prolog Software. It is a fully integrated warehouse management automation that has been developed to solve the current problems of small and medium-sized companies in warehouse management and can work with serial and ean barcodes supported by hand terminals.
