

Logo Edge BI suggested price list

Valid from September 3, 2026.

General explanations

1. All prices and price-related terms specified in this price list—including, but not limited to, license prices, training prices, and training durations—are for guidance purposes only and are non-binding.
2. All prices are stated in Turkish lira (TL) and exclude VAT.
3. Renewal fees will be calculated based on the current list prices applicable at the time of renewal. Logo reserves the right to revise its prices.

– Flexible Payment Plan

4. The flexible payment plan is a subscription model that offers customers various payment options.
5. Customers may continue using the product by paying the initial subscription fee in the first year and the applicable renewal fees in subsequent years based on their selected plan. Additional users, modules, e-solutions, and associated functional solutions purchased at a later date are also subject to the initial subscription fee in the first year and renewal fees in subsequent years.
6. The subscription is valid for one year. The renewed subscription period begins on the date the previous license term expires. Renewals will be processed based on the current commercial terms and prices.
7. If the subscription is not renewed by the renewal date, access to the product will be suspended, and the product will remain unavailable until the subscription is renewed. A 30-day period during which loyalty discounts are retained begins on this date. If the subscription is renewed within this period, a 10% late renewal fee will be added to the renewal fee, and the product will be reactivated once the renewal process is completed. If the 30-day period expires, the right to loyalty discounts will be reset, and a final 60-day period will be granted for renewal. A 10% late renewal fee will also be added to the renewal process.
8. If the subscription is not renewed within the total 90-day period following the renewal date, the customer's license will be permanently terminated, and the right to renew the license will be revoked. To use the product again, the customer must purchase a new subscription at the applicable first-year subscription prices.
- Training
8. Training services cover product usage and are provided by certified business partners. Requests involving configuration, reporting, and customization are evaluated separately.
9. It is strongly recommended that training services be obtained exclusively from authorized Logo business partners and certified training specialists listed on Logo's corporate website (www.logo.com.tr).
