

Logo Edge Flow suggested price list

Valid from September 3, 2026.

General explanations

1. All prices and price-related terms specified in this price list—including, but not limited to, license prices, training prices, and training durations—are for guidance purposes only and are non-binding.
2. All prices are stated in Turkish lira (TL) and exclude VAT.
3. Renewal fees will be calculated based on the current list prices applicable at the time of renewal. Logo reserves the right to revise its prices.

– Flexible Payment Plan

4. The flexible payment plan is a subscription model that offers customers various payment options.
5. Customers may continue using the product by paying the initial subscription fee in the first year and the applicable renewal fees in subsequent years based on their selected plan. Additional users, modules, e-solutions, and associated functional solutions purchased at a later date are also subject to the initial subscription fee in the first year and renewal fees in subsequent years.
6. The subscription is valid for one year. The renewed subscription period begins on the date the previous license term expires. Renewals will be processed based on the current commercial terms and prices.
7. If the subscription is not renewed by the renewal date, access to the product will be suspended, and the product will remain unavailable until the subscription is renewed. A 30-day period during which loyalty discounts are retained begins on this date. If the subscription is renewed within this period, a 10% late renewal fee will be added to the renewal fee, and the product will be reactivated once the renewal process is completed. If the 30-day period expires, the right to loyalty discounts will be reset, and a final 60-day period will be granted for renewal. A 10% late renewal fee will also be added to renewals completed within this 60-day period; however, loyalty discounts will no longer apply at this stage.
8. If the subscription is not renewed within the total 90-day period following the renewal date, the customer’s license will be permanently terminated, and the right to renew the license will be revoked. To use the product again, the customer must purchase a new subscription at the applicable first-year subscription prices.

– Training

8. Training services cover product usage and are provided by certified business partners. Requests involving configuration, reporting, and customization are evaluated separately.
9. It is strongly recommended that training services be obtained exclusively from authorized Logo business partners and certified training specialists listed on Logo’s corporate website (www.logo.com.tr).

Product description	FLEXIBLE PAYMENT PLAN

–Descriptions

1. The workflow management solution, Logo Edge Flow, enables the processes to run smoothly and save time and labor by transferring the workflow applications that businesses run on paper to electronic media. Automatic process initiation, drag-and-drop workflow and form design, authorization and delegation, timeout control and instant notification, use independent of time and place, customized reports, document management integration, Logo integration, e-signature integration, IOS and Android mobile application, mail listening, barcode reading and graphic reporting features are the outstanding features of Logo Edge Flow.
2. Logo Edge Flow main package includes 200 users. The number of users of the Logo Edge Flow product is independent of the number of users of the ERP product it is connected to. For Logo Edge Flow product, additional user increase is required to be purchased.
3. User increase are packages that, when added to the main package license, increases the number of users. Example: When Logo Edge Flow “user increase +20” is added, the product can be used by 220 users.
4. Logo Edge Flow works integrated with Logo ERPs but is licensed independently.
5. For information about the minimum system requirements, see: **System_requirements**
6. It is recommended to have the most up-to-date version of ERP solution.
7. In order to install the Logo Edge Flow solution, it is necessary to have the most up-to-date version of the ERP used.
8. In addition to Logo Edge T-Series, Logo Edge J-Series and Logo Edge N-Series, Logo Edge Flow works in integration with Logo Edge HR and Logo Edge CRM management products. Please find the recommended prices of the relevant solutions' price lists.
9. Text content extracted from scanned or photographed image files using the Logo Edge Flow OCR module can be analyzed and seamlessly integrated into your business processes quickly and accurately. Scanned documents can be viewed via a preview screen. In expense management processes, information captured from receipt images can be automatically transferred to form fields, eliminating the need for manual data entry. Logo Edge Flow OCR can be purchased on an annual subscription basis via logo.cloud.
10. The mobile application which can work on IOS and Android is free of charge.
