LOGO NETSIS 3 BORDRO

Easier human resources processes, smooth solution in payroll process: Logo Netsis 3 Payroll

In Human Resources processes, operations such as payroll and debt management intensively demand time and labor. Automating these operations which create time pressure on HR teams, prevents labor wastage and minimizes mistakes in manual applications. Utilizing its long years of experience in the management of HR processes, Logo makes a difference with Logo Netsis 3 Payroll, one of the most substantial solutions of the sector, for payroll operations, which are a labor and time-intensive processes. The Logo Netsis 3 Payroll solution allows HR departments to perform payroll operations quickly and accurately. In addition, they lower the operational costs of businesses with easy monitoring of operations.

While Logo Netsis 3 Payroll ensures the complete management of the employee payroll processes; Logo Netsis HR and Logo Netsis 3 provide end-to-end management of resources, working in an integrated way with the enterprise resource planning (ERP) solutions.

All registry information on one screen

Managing complex processes such as creating and storing documents regarding employment and termination of employment, retrospective reporting, means management of registration cards quickly and accurately is very important. Also, such procedures mean heavy workload and effort for HR teams.

With a Registry Management feature offered as standard, Logo Netsis 3 Payroll provides the ability to easily create and follow up registry cards and all legal documents. Registry cards created with Logo Netsis 3 Payroll can be customized with photos or signatures as well as shoe size, glove size, helmet size, and the information on the cards can be shared with the relevant authorities through e-mail. Former employee follow-up and re-employment of an employee is possible using the same registry card; thus, there is no need to create a registry card again. Employee rewards or warnings and assigned assets can also be followed up easily through Logo Netsis 3 Payroll.

Besides, reassignments within the company can be easily entered into the system with the Registry Management feature of Logo Netsis 3 Payroll. Using the Batch Assignment feature of the solution, changes regarding the business-workplace-department-unit can be entered into the system as a whole, in one step.

Manage all registry processes quickly and easily!

Speed up your payroll processes

Payroll procedures, which should be performed every month by businesses, are one of the biggest work items for HR departments. Automating this process, Logo Netsis 3 Payroll enables any employee information and accrual procedures required for employee payroll calculations to be accessed and performed effortlessly with the Payroll Management, and calculation periods can be adjusted according to payment dates. Bringing a great advantage to company groups having more than one company, Logo Netsis 3 Payroll allows you to monitor the payroll processes of all businesses within the same group from a single source only.

Logo Netsis 3 Payroll also facilitates staff work continuity and score card calculations. All score card information can be quickly processed and transferred to the system via the Spreadsheet Tool. With Logo Netsis 3 Payroll, allowing the use of formulas in score card calculations, score card calculation can be made as a whole by closing the period on the workplace basis when all or most of the employees' rights, payments, and score card values are the same. In this way, there is no need to process information of each employee separately, and HR teams save considerable time. The score card calculation can be imported from Excel into the system and included in the score card thanks to the Checker Entry option. Previously created score cards can be imported directly to the relevant employee's card with the Checker Data Transfer process. For a trade union employee, relevant union activities can be followed up and contribution fees can be automatically deducted from the payroll according to the relevant formula.

The management and follow-up of many different procedures through Logo Netsis 3 Payroll make it easier to manage salary in foreign currencies, debt/advances and reporting processes, and reports such as the bulk wage adjustment, accrual totals, cost center distribution report, severance, and notice payment can also be received in a very short time.

With the perfect integration of Logo Netsis 3 Payroll with Logo Netsis HR and Logo Netsis 3 ERP solutions within the portfolio of Logo, payroll and debt procedures can be automatically recognized.

Comprehensive solutions through a single system!

Easy follow-up of debt and advances

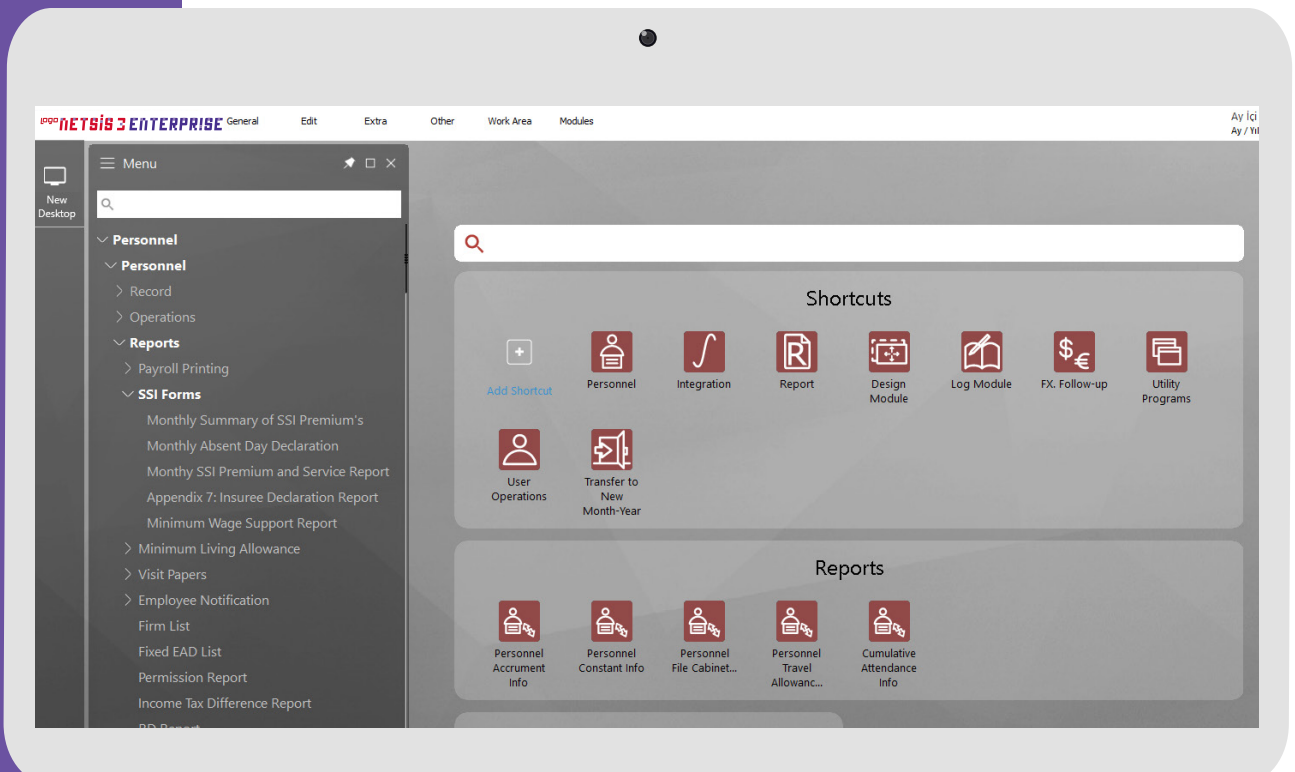

One of the most critical stages of human resources processes that require follow-up is to ensure the smooth control of payments such as debts and advances. With Logo Netsis 3 Payroll Debt & Credit Management, employees' work advances, salary advances, and expenses can be followed up closely. Employees' debts at a company can be split into installments and payment plans can be created through the system, and deduction amounts for special debts such as alimony or debt execution can be identified and formulated on a wage basis through Logo Netsis 3 Payroll.

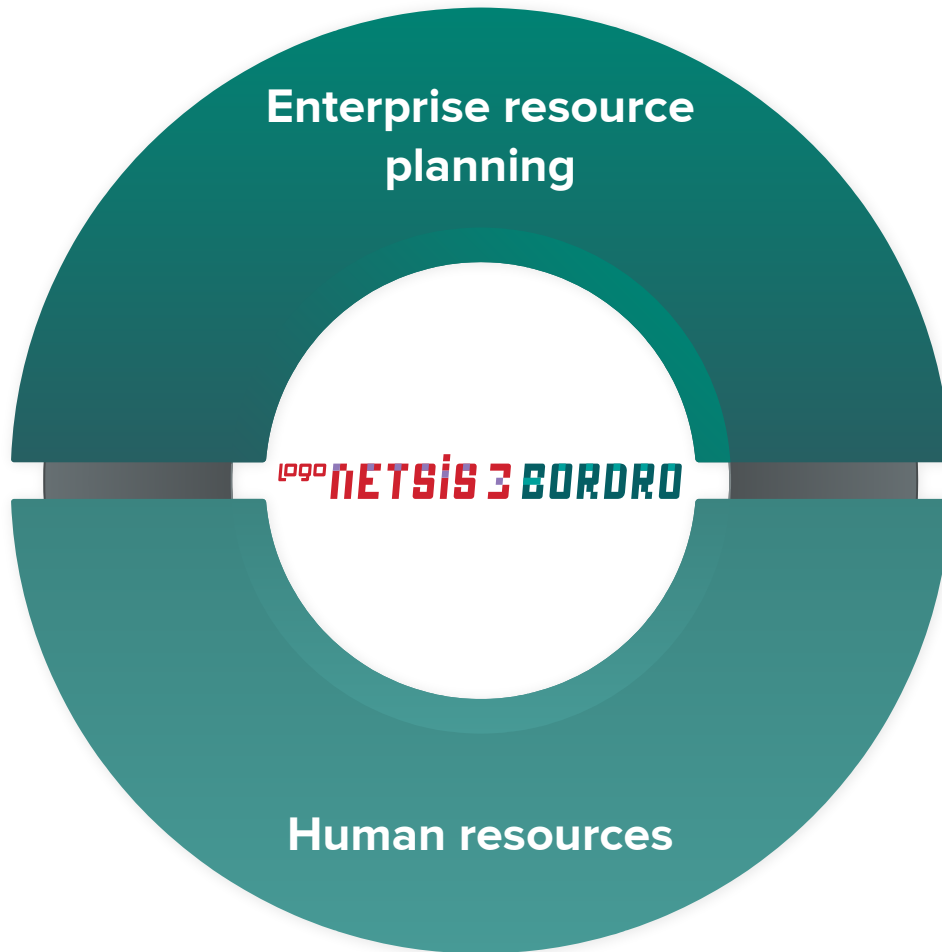

Full integration, uninterrupted business follow-up

Logo Netsis 3 Payroll solution is fully integrated with Logo Netsis HR and Logo Netsis 3 ERP solutions. With its comprehensive Logo Netsis HR integration in the HR field, business functions such as Registry Management, Payroll Processes, Debt/Advance Management, Workflow Management, Analysis, and Reporting can be managed practically.

Thanks to the integration with Netsis ERP solutions, data entered into Netsis 3 Payroll is ensured to be consistent with all company-wide data, and payroll and debt processes can be automatically recognized through the system.

The most valuable IT brand of Turkey

Ecosystem of 5000+ people	800+ Business partners	150.000+ Active customers	1.300+ Employees
---------------------------	------------------------	---------------------------	------------------

Logo is coding the future together with its customers, business partners, employees, investors, and all stakeholders as a company contributing to the sustainable success of its customers. Logo creates value with its customers with passion and agility.

Turkey's largest public software company and the largest local enterprise software company, Logo continues its activities as one of the leading companies in the industry since its foundation in 1984. Logo offers application software solutions to enterprises ranging in size from micro to large corporations. The company, by increasing innovation and creativity in its products and services, lays the foundation for sustainable success by accompanying many companies from 44 countries on their journey of growth, with more than 1,300 employees in 4 different countries at 7 different locations and 800 business partners. Logo is a software company competing at the global level with investments in Romania and India. With Logo Total Soft, the subsidiary in Romania, the company aims to expand its footprint in the domestic market in Romania and in the European market. With its investment in India, Logo carries out product development, promotion, and marketing activities in the Indian market.

In addition to Enterprise Resource Planning, Logo's offering comprises many complementary solutions such as Customer Relationship Management, Human Resources Management, Workflow Management, Warehouse Management Systems, Business Analytics Solutions, Retail Solutions, and e-Government

solutions. It also provides digital transformation consultancy and special project management services. As the leader of the ERP systems in terms of number of customers for many years, Logo boasts a large and robust ecosystem that extends from business partners to Logo users, and from academics to students and industry professionals. Logo pursues its vision to code Turkey's future together thanks to the power it derives from this ecosystem. Logo believes in the dreams of its customers, shares the same goals, and works diligently towards achieving them.

Since its establishment, Logo has become the innovative leader of the industry thanks to its innovative products, services and business processes, and the added value it creates in digital transformation. Logo has invested in different businesses and technologies and has witnessed many breakthroughs and revenue growth in recent years due to organic and inorganic growth. The company has always adopted a fair and transparent management approach and currently has a free- float rate of 66%. Also, Logo is the first IT company to go public in Turkey and the IPO was in 2000.

After a series of strategic investments aiming at transferring the know-how and experience gained in the Turkish market to abroad, it continues the path towards becoming a regional player as one of the industry's leading companies. Logo has been pursuing its firm growth with 38% revenue CAGR (compound annual growth rate) in the last 10 years.
