

Logo Start 3 price list

Valid from January 7, 2026

General explanations

1. All prices are in Turkish Lira (TL), VAT is not included in the prices.
2. Renewal fees will be calculated based on the current list prices during the renewal periods. Logo Software reserves the right to update prices.

– Flexible Payment Plan

3. Flexible payment plan is a subscription model that offers different payment plans to customers.
4. Customers will be able to continue using the product by paying the initial subscription fee in their first years and renewal fees according to the plan they choose in the following years. Any subsequent user increases, modules, e-solutions, and related functional solutions also require them to pay the first year's subscription fee and subscription renewal fees in the following years.
5. The subscription validity period is 1 year. The renewal date begins from the date the previous license usage period ends. Renewal transactions will be carried out based on current commercial terms and prices.
6. If the subscription is not renewed on the renewal date, access to the product will be suspended and the product cannot be used until the subscription is renewed. Starting from this date, a 30-day grace period begins during which loyalty discounts are preserved. If the subscription is renewed within this period, a 10% late fee will be applied to the renewal cost, and the product will become active again once the renewal is completed. If the 30-day grace period ends, the loyalty discount entitlement will be reset, and a final 60-day compensation period will be granted to allow subscription renewal. Renewals made during this compensation period will also incur a 10% late fee; however, loyalty discounts will no longer apply.
7. If renewal is not made within 90 days following the renewal date, the product usage license will expire. If the customer wants to use the product again after the 90th day, they will need to start a new subscription.

– Training

8. The trainings are related to product usage and are given by certified business partners. Requests such as identification, reporting, and adaptation are also evaluated.
9. It is strongly recommended to receive training services only from authorized Logo business partners and certified training experts located on the Logo corporate website (www.logo.com.tr).
