

Warehouse management systems suggested price list

Valid from 7 January 2025.

General descriptions

- 1

All price and price-related conditions in this price list (including but not limited to license prices, training prices and training durations) are advisory only and are non-binding by Logo.
- 2

All prices are in Turkish Lira (TL) and do not include VAT.
- 3

Prices may differ depending on valid Logo Enterprise Membership (LEM) contracts in progress, except for the main package and transition package prices.
- LEM (Logo Enterprise Membership)
- 4

LEM is a subscription system which provides customers the latest version of the product with new features and performance improvements, also enables customers special prices for user, employee, firm increases and modules when desired to be purchased.
- 5

A 1-year LEM is free for new package purchases. When switching to other products;

•When switching to other products in the same segment, with or without a fee, the LEM validity for the previous product will be transferred to the new product (with the same start and end dates).

•When upgrading to upper segments with a fee, 1-year free LEM is assigned to the new product starting from the switch date.
- 6

The LEM is valid for one year. The renewal period will start as of the end date of previous LEM.
- 7

Users who renew their LEM subscription before or within 30 days after the end date and in a regular manner may benefit from the loyalty discount and get LEM with advantageous prices.
- 8

In case the LEM has expired, the installation of additional products purchased with the "price applied for a valid LEM" cannot be performed.
- 9

For LEM subscriptions that are not renewed within 30 days following the end date, a Retrospective LEM should be purchased. The price of the Retrospective LEM is 10% more than the price of the Standard LEM.
- 10

The price of LEM is calculated as per the latest configuration in the product (main package, module, user/employee/firm increase). User/employee/firm increases are included in the price calculation of LEM as of the date of purchase. The price of LEM is calculated considering the end date of the LEM subscription for options (modules). For every module purchased at least one year prior, the duration from the month in which the 1-year period expired until the end date of the Standard LEM subscription is checked and the remaining months are included in the LEM price calculation.
- 11

Service, installation and upload prices of Logo Business Partners are not included in the LEM prices.
- Training
12.

Training sessions regarding the use of products are organized by certified business partners. Requests for diagnostics, reporting and customization are evaluated separately.
13.

It is strongly recommended that you only participate in training sessions provided by Logo business partners and certified training specialists listed on the Logo corporate website (www.logo.com.tr).

– Explanations

- 1 Logo WMS Platform; includes stock tracking, shipment, goods acceptance, warehouse layout, personnel management, counting features. In order to use the production feature, the "Production Module" must be purchased separately. Logo WMS Platform is an adaptable solution. All the mentioned features are tailored to the needs.
2. Logo WMS is a plug-and-play package with no customization features. It has basically all the features that companies that want to use a warehouse management system will need. It is designed to work with new generation android handheld terminals. In order to use the production feature, the "Production Module" must be purchased separately. Please contact your service partner for the product features of [For the supported ERP solutions features table; https://docs.logo.com.tr/pages/viewpage.action?pagelId=66224334](#)
3. Users who make an annual agreement for Logo WMS Platform and Logo WMS main package will have an annual subscription license. The additional user increase and modules that they will receive within the scope of the subscription during the year are calculated over the monthly price without the requested month being included in the calculation and are included in the main package license.
4. Logo WMS Platform solution works integrated with GO, Tiger, Netsis, j-Platform and Non-Logo ERP solutions, but is licensed independently.
5. Logo WMS solution works integrated with GO, Tiger and Netsis ERPs but is licensed independently.
6. In order to install the Logo WMS Platform solution, it is necessary to have the most up-to-date version of the ERP used.
7. Supported language packs for Logo WMS Platform and Logo WMS;
[2025 Supported Language Packs.pdf](#)
8. The database fee is not included in the prices. Current versions of Microsoft® SQL Server® are supported.
9. In order for Logo WMS to work in harmony with the Netsis ERP solutions you use, it is expected to have version 9.0.34 and above.
10. In order for Logo WMS to work in harmony with the Tiger ERP solutions you use, it is expected to have version 2.62 and above.
- 11 The number of users of the Production Module is the same as the number of users of Logo WMS Platform and Logo WMS. No additional users are sold for the Production Module.
12. The production module of Logo WMS is not available for sale for Logo GO 3 and Logo GO Wings solutions.
13. The production module of Logo WMS includes only rapid production features for Logo Tiger 3 and Logo Tiger Wings solutions.
14. The production module of Logo WMS covers all production functions of Logo Tiger 3 Enterprise and Logo Tiger Wings Enterprise solutions.
15. The production module of Logo WMS works in harmony with all Netsis ERPs.

– Product transitions

Transition from one-time package model to subscription model

- 16 Logo WMS Platform (one-time) users who switch to the Logo WMS Platform (subscription) solution are priced at the "Logo WMS Platform transition user" prices with the number of users available.
- 17 Customers who switch from Logo WMS Platform (One-time) to the subscription model, if they have the Production Module, which is priced monthly/yearly in the Logo WMS Platform (Rent) price list, for these modules are not charged for a period of 1 year. In order to continue the right of use in the following years, it is billed monthly/yearly according to the demand over the relevant module list price.
- 18 Logo WMS (one-time) users who switch to the Logo WMS (subscription) solution are priced at the "Logo WMS transition user" prices with the number of users available.
- 19 Customers who switch from Logo WMS (One-time) to the subscription model, if they have the Production Module, which is priced monthly/yearly in the Logo WMS (subscription) price list, will not be charged for these modules for a period of 1 year. In order to continue the right of use in the following years, it is billed monthly/yearly according to the demand over the relevant module list price.

20 In product transitions, the invoice of the current product used and the waiver agreement stating that this product has been waived must be signed and submitted to Logo.

Transition from discontinued products to the subscription model of new products

- 21.** Users who will switch from the terminated Logo Ocean solution to the Logo WMS Platform solution with a monthly/yearly subscription model are priced with the current number of users over the Logo WMS Platform transition user prices. Users who want to purchase a production module priced monthly/yearly in the Logo WMS Platform price list are billed monthly/yearly based on the list price for this module. If users have the Pro package of the Logo Ocean solution, they do not need to purchase the production module separately.
- 22.** Users who will switch from the Logo Neon solution, which was terminated on May 14, 2020, to the Logo WMS solution with a monthly/yearly subscription model, are priced with the current number of users over the Logo WMS transition user prices. Users who want to purchase a production module that is priced monthly/yearly in the Logo WMS price list are billed monthly/yearly based on the list price for this module.
- 23.** In product transitions, the invoice of the current product used and the waiver agreement stating that this product has been waived must be signed and submitted to Logo.

— Training

- 22** Base training time for Logo WMS Platform is 40 hours. This period is advisory and may vary depending on the package content.
- 23** Base training time for Logo WMS is 24 hours. This period is advisory and may vary depending on the package content.
